

Type Rating - Boeing 757 / 767

Course Structure:

- Ground School:** A combination of work in the classroom and on a fixed base simulator at the training centre, covering all the aircraft systems, performance and operating procedures.
- Simulator:** A number of full flight simulators are available at different locations, depending on availability.
- Aircraft Training:** This will require six landings on the aircraft and takes about one hour of flying.
- Line Flying:** 100 hours Line flying which includes OCC, safety and the Operator's Proficiency Check for validation.

Entry Requirements:

- Frozen ATPL
- Valid ME IR
- Minimum 100 hours PIC
- MCC Qualification (can be provided at additional cost)

Subsequent Type Rating: Valid ME IR
